OVER 4500 ITEMS AND 72HR DELIVERY
 MORE THAN 35 YEARS EXPERIENCE
 WIDE RANGE OF QUALITY BRANDS
 COUNTRYWIDE SERVICE & SPARES
 EXTENSIVE DEALER NETWORK

EDITION 13

Welcome to the 13th Edition of the BCE Buyers Guide.

Our Buyers Guide has always been the industry standard, introducing innovation and continuous improvement within our carefully selected ranges from leading global suppliers. This edition is no different with over 450 new items and the introduction of premium brands such as Cambro, Ocean and Efaq.

This catalogue has been engineered to be more user friendly and allow customers to have a better sense of the ranges and products available. Start your journey from the back of house all the way to table top, illustrating that the Edition 13 is everything you will need in one place. We hope that you enjoy navigating and shopping from this catalogue as much as we have enjoyed crafting it for you.

ABOUT US

BCE Foodservice Equipment is Southern Africa's leading supplier of commercial kitchen equipment, appliances, utensils, buffetware, and tableware for the hospitality and foodservice industries. Established in 1987, BCE's roots are firmly grounded in Southern Africa. We have an extensive product range, with over 4500 products, comprising quality brands, sourced from reputable local and international suppliers such as Robot Coupe (vegetable preparation equipment), Churchill (crocker solutions), Hamilton Beach (commercial blenders) and Cambro (hospital care and storage).

BCE boasts over 60 leading brands, distributed exclusively through an expansive dealer network throughout Sub-Saharan Africa. With experience spanning 35 years, BCE has built a formidable operational capability to service its customers and is regarded as the best in the highly competitive foodservice equipment industry.

OUR TEAM

BCE is proud to have a committed, expertly trained, and experienced workforce that continuously strives to deliver a seamless experience. We pride ourselves on excellent service and offering skilled support to our customers. Our teams work efficiently and accurately to consistently deliver on our customer needs. Operations are coordinated and executed from our Johannesburg and Cape Town branches.

SERVICE

Our customers are our number one priority and we are committed to their success. We have developed a solid understanding of their expectations, and the industries within which they operate, through years of experience and relationship building. BCE's service is unrivaled in the industry. This is evident in our daily operations and customer feedback. We ensure availability of stock at any given time, with the best global brands that adhere to quality standards supported by an excellent sales and technical team.

BRANDS

Our products conform to global quality standards and adhere to regulations for the protection of health, safety and the environment. Our world-renowned brands such as DIHR (dishwashing systems), Bravilor Bonamat (coffee machines), Piron (commercial ovens), Brema (ice solutions) and Anvil (catering equipment) are from carefully selected suppliers and are consistent with industry innovations and best global practices.

SHOWROOM

Visit the BCE showroom in Johannesburg for an exciting experience. BCE boasts a state-of-the-art showroom and test kitchen, which is approximately 500sqm², and is one of a kind in the industry. Our magnificent showroom has been designed to provide a realistic representation of a typical food and beverage establishment and is stocked with solutions to cater to different customer needs. This unique experience has been replicated in our Cape Town branch. Our passionate and professional sales consultants are always willing to provide a detailed tour of the showrooms which showcase our products and will demonstrate their capabilities and assist with suitable solutions.

With over 4500 products, a breath-taking showroom, 24-72-hour delivery commitment, a skilled workforce and over 60 market leading brands - BCE is in a class of its own.

CATEGORY INDEX

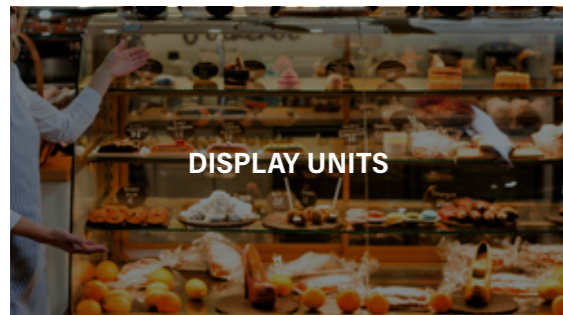

PG 5 - 80

From table top to floor standing solutions, our range of Anvil, Forge, Piron and Bravior equipment will compliment any establishment to help you achieve great results every time.

PG 81 - 94

Whether cooling or freezing, our comprehensive offering from Salvadore and Brema are guaranteed to preserve food, minimise waste and cater to your drinks service needs.

PG 95 - 108

Choose from hot, cold or ambient units in various sizes; within our range you will find a display unit to suit your individual needs and present your food in the best possible way.

PG 109 - 158

Find the ideal piece of equipment to blend, slice, prepare, mix, convert or preserve. Choose from our range of world leading brands such as Hamilton Beach, Robot Coupe and Rheninghaus amongst others.

PG 159 - 180

From brushes and mops to insect exterminators and dishwashers; find everything you need to keep your establishment clean and hygienic.

CATEGORY INDEX

PG 181 - 218

Safely storing and transporting food is made possible with our range of products from world leading brands such as Cambro. Our ranges are designed to withstand the most demanding of environments.

PG 219 - 304

Dramatically enhance the foodservice process within your business through our range of smalls and utilities. Find everything you require for front and back of house in one place.

PG 305 - 318

ChefEquip professional uniforms offer a wide selection of finely crafted and stylish aprons, chef jackets, trousers and hats whilst still remaining practical for the rigour of a commercial kitchen.

PG 319 - 368

Enhance any dining presentation with our ranges from world class brands such as Tiger, Infinity and Efaq. Our ranges offer both contemporary and classic designs that are beautiful and functional.

PG 369 - 482

From practical day to day solutions to the latest designs, textures and colours from world leading brands; our ranges of tableware cater from hospitals to five-star restaurants and everything in between.

DIMENSIONS

When viewing the appliance from the front in its regular operating position, the width (W) of the product is the total distance from left to right; the depth (D) of the product is the total from front to back; and the height (H) is the total distance from the bottom of the product to the top.

The three figures shown for rectangular type products are always given in the following order:

WIDTH (W) X DEPTH (D) X HEIGHT (H)

In the case of circular or cylindrical shaped products, the diameter and height of the product from top to bottom are shown. In the case of utensils, unless otherwise specified, the dimension given is the total length of the utensil.

PRODUCT DIMENSIONS

- All dimensions are given in millimeters (MM) or centimeters (CM).
- Please treat dimensions as approximate and subject to change. Detailed drawings can be supplied on request.
- All volume capacities are given in liters (L or LT) or milliliters (ML) and total capacities.
- 1 liter = 1000 milliliters

PRODUCT WEIGHTS

- These are given in kilograms (KG). To convert to pounds multiply by 2.2
- Please treat weights as approximate and subject to change.

ELECTRICAL PARAMETERS

Voltage is 220/230V single phase 50Hz AC, unless otherwise specified. Power is the total electrical output power in kilowatts (kW). This figure can be converted to give the equivalent horsepower value, by dividing it by 0.7461kW = 1.34hp.

PLEASE NOTE

- The products may differ slightly from the pictures shown in this buyers guide.
- Outputs and capacities given are generally the maximum possible and these figures do vary according to circumstances. They are based on measurements supplied by the manufacturer.
- Every effort has been made to include as much needed information as possible and to present it in an easy-to-read, unambiguous and consistent manner

FINDING YOUR WAY

You can refer to the index in each section, or turn to the applicable colour-coded category hosting the type of product, or look the product up in the alphabetical 'reference section', which will give the exact page number where the product can be found.

ICONS AND MEANINGS

NEW
Recently introduced products.

RATINGS
International Performance and Safety Certification.

IMPROVED
Products that have been enhanced by the supplier.

LPGSA
Liquefied Petroleum Gas Safety Association Certification.
(For a list of approved gas installers, visit www.saqccgas.co.za).

18/10
Items that are manufactured with the highest quality 18/10 stainless steel.

Heating

From table top to floor standing solutions, our range of Anvil, Forge, Piron and Bravilor equipment will compliment any establishment to help you achieve great results every time.

SOLID TOP

FEATURES

- Unit designed to compete in the rigorous and demanding environment of busy kitchens in the most popular chains, franchises and high-end restaurants
- Heavy duty Robert Shaw thermostats for reliable and effective heating control over entire surface
- Heavy duty 12mm thick cooking surface for effective heat distribution and retention
- Sturdy, fully welded S/Steel stand with bottom shelf for additional storage (non-collapsible)
- Heavy duty fascia (temperature scale) design to inspire confidence in unit's hard working characteristics
- Solid S/Steel construction, designed to be hard working, durable, easy to clean, maintain and service
- Rear fixed castors to easily move for cleaning

INDUCTION WARMER

What Is Induction?

Put simply, an induction-cooker element is a powerful, high-frequency electromagnet, with the electromagnetism generated by sophisticated electronics in the "element" below the unit's glass surface. When a good-sized piece of magnetic material such as, a S/Steel pot is placed in the magnetic field that the element is generating, the field transfers ("induces") energy into that metal. That transferred energy causes the metal (S/Steel pot) to become hot. By controlling the strength of the electromagnetic field, we can control the amount of heat being generated in the cooking vessel and we can change that amount instantaneously.

Please note that all of our S/Steel Infinity and Global pots and sauce-pans are Induction friendly

FEATURES

- Warmer must only be used in buffet heating application, must not be used for cooking
- Warmer is not for heating up water in chafing dish.
- Water must be pre-heated before being poured into water pan
- Water must be kept below 90°C, to keep food warm

SINGLE
IND0002

MEAT AGER

FEATURES

- Constructed with a double glazed lockable door and S/Steel outer body.
- Moulded interior is resistant to bacteria and for ease of cleaning.
- Unit is fitted with a precise, intelligent temperature and humidity control, temperature 1°C - 4°C and humidity of 60 - 90%

- Ageing of meat with minimal weight loss.
- LED lighting to enhance the product displayed.
- Fitted with UVC lamp sterilization and high perspective anti-ultraviolet insulating glass.
- Activated carbon filter to purify the air inside the unit.

400LT MAB0400

SPECIFICATIONS

VOLTAGE	: 230V
POWER	: 160W
WEIGHT	: 102KG
DIMENSIONS	: 750 X 800 X 1650MM
CHAMBER SIZE	: 555 X 555 X 1390MM

Includes

2 Shelves, 2 swivel hooks, salt tray and a hook hanger.

BILTONG CABINETS

FEATURES

- Well suited to small volume operations, hunters, home industries and biltong enthusiasts
- Preset temperature control to avoid tampering
- Heater cannot be switched on without the fan being in operation
- Efficient extraction fan for maximum air changes and uniform drying throughout the cabinet

- Unit can cure 25KG of wet product at a time
- Internal hanging brackets for improved flexibility
- High quality all S/Steel cabinet

JUNIOR - 245LT BCB0245

SPECIFICATIONS

VOLTAGE	: 230V - 50Hz
POWER	: 0.75kW
DIMENSIONS	: 580 X 460 X 1080MM
WEIGHT	: 43KG
CHAMBER SIZE	: 500 X 450 X 910MM

Includes

10 X S/Steel hanging rods
1 X S/Steel drip tray

FEATURES

- The ideal machine for butcheries and supermarkets to produce high volumes of biltong
- Proven 20% performance benefit over competition
- Glass window for product display
- Unit fitted with anti-bacterial ultra violet lamp for product protection
- Locking door handle for security

- Adjustable thermostatic temperature control
- Powerful extraction fan to ensure maximum air changes for uniform drying throughout
- Heater cannot be switched on without the fan being in operation
- Unit can cure 100KG of wet product at a time
- High quality all S/Steel 1250LT cabinet

Do a dry cure (24 HR), or wet cure (12 HR) first with the temperature control switch off, and only the light and fan on. Then put the temperature control on setting 3, and leave for ±3 days. The ideal temperature for drying biltong is 32°C - 34°C.

1250LT BCB1250-R01

WEIGHT	: 120KG
CHAMBER SIZE	: 950 X 730 X 1750MM

Includes

24 X S/Steel hanging rods
1 X S/Steel drip tray

Note

Optional additional extras available on request

SMOKING CABINETS

FEATURES

- High quality all S/Steel construction
- Smoking and drying functions controlled with a simple to operate venting system
- Temperature controlled by a digital indicating electronic controller in the case of the 600LT unit and via a thermostat control on the junior smoker
- The junior smoker drying cycle has natural convection
- The 600LT smoker drying cycle has fan assisted convection
- The smoking cycle is achieved using natural convection with an ignition element for wood chips
- Inner parts easily removable for easy cleaning
- Smoked product has low mass loss
- Junior smoker fitted with electromechanical timer and time lapse signal to indicate completion of cycle.

JUNIOR - 170LT SCB0170

WEIGHT	: 167KG
CHAMBER SIZE	: 1000 X 655 X 1020MM

Includes

- 3 X Perforated S/Steel trays
- 10 X Aluminium rods

AUTOMATIC - BEAN TO CUP

The Bravilor Bonamat Bean to cup is a fully automatic espresso machine. It uses freshly ground beans to prepare all its coffee specialities. The machine is available in 2 models, namely the Esprecious 12 and Esprecious 11L [with FreshMilk].

The Esprecious 11L is supplied complete with the FreshMilk. The FreshMilk has been specially designed for the Esprecious espresso machine. The Bravilor Bonamat cooling system keeps the milk at a constant 4 degrees. The milk frother inside the Esprecious creates a milk foam as light as air. The whipping process of fresh cold milk, steam and air creates milk foam of superb quality. A major advantage of the FreshMilk is that it is controlled by the Esprecious touchscreen. Daily cleaning and rinsing activities are selected via the touchscreen, with visual and acoustic feedback.

FEATURES

- Ease of use: intuitive touchscreen
- Double dispensing outlet for serving two cups simultaneously
- Automatic rinsing program to optimise the in-cup quality
- Separate hot water outlet for e.g. tea
- Unique hot water system to reduce scaling, reduces the maintenance requirement

ESPRECIOS 12 BVE1000

SPECIFICATIONS

OUTPUT	: 200 CUPS PER DAY

AUTOMATIC - BEAN TO CUP

The Sego is one of Bravilor Bonamat's fully automatic espresso machines. All coffee specialities are made using freshly ground coffee beans. The extensive touchscreen menu offers 30 beverage choices. The Sego is suitable for many locations and takes up very little space thanks to its compact footprint.

FEATURES

- Easy, quick installation
- Intuitive touchscreen
- Menu with up to 30 beverage choices
- Unique rotational brewer that's easy to remove and clean
- 2 instant ingredient canisters
- Maintenance friendly

BACK BAR COOLERS

Salvadore will be using a new, more environmentally friendly insulation material, called cyclopentane, in the manufacture of select units. Cyclopentane is a blowing agent for the polyurethane foams that are used to insulate refrigerators and freezers. Unlike other chemicals used to insulate refrigerators, cyclopentane does not contain hydro-fluorocarbons (HFCs). Using cyclopentane results in significant reductions in equivalent CO2 emissions.

FEATURES

- Aluminium for internal and black coated steel for external side
- Item with shiny finishing and total height at 900MM
- Roll-bond evaporator system with fan assisted cooling
- Automatic compressor cycle defrost
- Foaming agent cyclopentane (40MM per side)
- Digital thermostat
- Self closing door
- Removable gasket
- Adjustable shelves
- Toughened safety tempered glass
- Lock fitted as standard
- Adjustable feet
- Energy efficiency class: D

SUMMIT

FROZEN YOGHURT MACHINES

The multi-purpose Summit machine combines technological innovation and versatility with ease of use, allowing you to delight your customers. Thanks to its innovative bowl temperature control system and push button that allows increased working speed, GT Push is the only counter-top machine on the market capable of preparing real frozen cream (coffee cream, hazelnut cream, etc.) as well as soft ice cream and frozen yoghurt.

With the GT Push you can prepare soft ice cream and frozen yoghurt, together with any product that can be prepared with a temperature between 7 and 10 degrees below zero.

FEATURES

- Compact counter machine
- Exceptional quality/price ratio
- LED based electronic key pad
- HACCP certified
- Lockable lid
- Designed to work with water or milk based dried products or with mixtures ready to be poured into the bowl, providing a significant overrun
- Automatic defrost mode
- Available in one or two bowl configuration

ANVIL

2 YEAR WARRANTY

5 REASONS WHY

- 2 Year warranty
- National spare parts support
- Unrivalled after-sales service
- Trusted by South African industry professionals since 1993
- Engineered and manufactured to the highest international safety standards

RHEINGHAUS

2 YEAR WARRANTY

5 REASONS WHY

- 2 Year warranty
- International brand established in 1950
- Italian designed and manufactured to the highest international standards
- A strong and innovative tradition coupled with creativeness
- Uncompromised safety complying with European standards

robot coupe

Hamilton Beach COMMERCIAL

5 REASONS WHY

- International brand established in 1961
- French designed and manufactured to the highest international standards
- At the cutting edge of technology, innovation, and excellence
- Undisputed leader in food preparation equipment
- World leader in more than 130 countries

5 REASONS WHY

- International brand established in 1910
- American designed and manufactured to the highest international standards
- Award winning products at the forefront of technology and innovation
- The global leader in blending solutions
- More than 500 approved American patents

SUMMIT

avenia

5 REASONS WHY

- Established brand since 2009
- Designed and manufactured to withstand commercial kitchen demands
- Ideal for front and back of house applications
- Sleek and modern designs to enhance any establishment
- Practical and robust products for everyday use

5 REASONS WHY

- A trusted brand within the industry
- Ranges to suit a variety of needs
- Manufactured to withstand demanding hospitality environments
- Sleek and modern designs for front and back of house applications
- Continuous expansion to meet changing needs

ROBOT COOK

The 1st professional Cooking Cutter-Blender! The kitchens assistant for Chefs.

Emulsifying, grinding, mixing, chopping, blending and kneading are among the many functions carried out to perfection by the Robot Cook®. In addition, there is modifiable heating capacity up to 140°C, accurate to the nearest degree. The large capacity bowl means you can produce sufficient quantities for professional needs.

The Robot Cook® stimulates the chef's imagination. It is the ideal assistant when innovating and preparing a multitude of attractive, hot and cold, savoury or sweet recipes.

FEATURES

- Easy to use with its variable speed function of 100 to 3 500 RPM
- Refined dishes prepared in no time with its Turbo/Pulse rotary speed reaching 4 500 RPM
- A mix of delicate products prepared without cutting due to the inverse rotation of the blade: the R-Mix® function from - 100 to - 500 RPM
- Keeps the food preparation hot thanks to the intermittent function
- The powerful Robot Cook® relies on a very robust industrial induction motor

BLIXER

THE FUNCTIONS OF A CUTTER + A BLENDER IN 1 MACHINE

- Since 1991, Robot Coupe has been improving the Blixers® concept in close partnership with healthcare and catering specialists, in order to process food for people who have problems to chew and swallow
- With a Blixer®, preparing healthy, well balanced and tasty food is simplicity itself, due to it's ability to blend raw ingredients
- Robot Coupe Blixers® allow you to make any starter, main dish or dessert you choose with a modified texture for the health sector
- Handy polycarbonate lid equipped with a watertight seal and with a bowl and lid scraper
- All parts that are in contact with food can be easily removed for cleaning
- With a specific blade to process batches from 300gr to 2KG, the Blixer® has incredible small portion control

FEATURES

- S/Steel motor shaft
- Pulse function
- Induction motor
- Magnetic safety system and motor brake
- High liquid capacity bowl
- Sealed lid
- Bowl and lid scraper made in two parts, easy to dismantle and to clean

Blixer® is the essential tool for the trendy cuisine in gourmet bistros, top level restaurants, caterers, banquets and for health care facilities

VACUUM PACK MACHINE

The only system that allows you to vacuum pack all types of glass jars with metal lids. This makes it possible to convert waste into a resource, save a considerable amount of time and money, while reducing waste to a minimum.

FEATURES

- Made with ABS body and S/Steel lid
- Voltage and Frequency: 220-240 V/ 50-60 Hz (motors for other voltages and frequencies available on request)
- Features four different operating modes: Automatic cycle - Manual cycle- Suction in jars cycle - Sealing cycle (for rolls)
- Double sealing bar (width: 3MM) with excellent heat resistance
- Simple and precise sealing settings
- Clean, streamlined design.
- Built-in jar suction system
- Removable trays for easy cleaning operations

PLANETARY MIXERS

WHAT SETS THE KITCHENAID MIXER APART FROM DOMESTIC MIXERS?

- Professional mixer designed for commercial use
- All metal construction
- Driven by gears, not a belt - therefore maintains constant speed even when large quantities are added to the bowl
- Machine has chip and stain resistant finish
- Uses a lift system i.e. mixer's head does not tilt, promoting mixer stability

A must for any professional kitchen: reliable, quiet and durable with unsurpassed performance. Comes standard with S/Steel mixing bowl, whisk, dough hook and beater attachment.

4.8LT - WHITE PMK3005

SPECIFICATIONS

MOTOR	: 0.32kW - 220-240V - 50-60Hz
DIMENSIONS	: 411 X 264 X 348MM
WEIGHT	: 12KG

FEATURES

- Smooth rounded bowl-lift professional design. Ideal for heavy loads/ use and easy to clean
- 6.9LT S/Steel bowl. Easily handles very large quantities of food
- 1.3HP high efficiency motor with direct drive quiet and powerful
- Full metal body construction, high precision metal gears and metal control knobs stable, quiet and durable
- All S/Steel standard accessories robust, durable and dishwasher-safe
- Original planetary action fast and thorough mixing
- Single attachment hub easy usage with a wide choice of optional accessories
- Wire guard and stop switch for high safety in a commercial environment

6.9LT - PROFESSIONAL PMK0069

HOOD TYPE DISHWASHER COMPLETE SETUP

DIHR WASHING CYCLE

DIHR your ideal partner in professional glass, dish and utensil washing.

An integral part of any busy hotel or restaurant kitchen. Use the complete DIHR 5-step dish washing system to provide a constant supply of sparkling clean crockery and cutlery on demand.

STEP 1

Rinse off your soiled crockery and cutlery with the pre-rinse spray

STEP 2

Stack your dirty crockery and cutlery into the glass or dish racks and slide into the dishwasher to commence the wash cycle

STEP 3

On completion of the wash cycle, slide out the rack and the washed items will air dry in minutes

STEP 4

Stack the washed items still in the racks onto your rack dolly for safe and damage free storage of your valuable crockery and glasses

STEP 5

Wheel your rack dolly to your storage or setup area, ready to be wheeled into action on demand

DISHWASHER - TUNNEL

SMALL SIZE, GREAT PERFORMANCE! The RX101E compact dishwasher has been designed to satisfy the demand of commercial kitchens. These machines combine compact dimensions with high performance.

FEATURES

- Self-cleaning vertical wash pumps, protected from electrical overloads
- Traction system with built-in clutch preventing derailment
- AISI 304 S/Steel boilers fully insulated to reduce thermal losses
- Electronic soft touch panel with IP65 security level, manufactured to be user friendly and easy to be cleaned
- S/Steel washing and rinsing arms. These are removable without using any tool, for easier cleaning operation or to help the change of working direction on the RX 101E
- S/Steel surface filters on every tank, easily removable without detaching washing arms
- Insulated double skin door, counterbalanced, equipped with anti-drop safety system
- Auto timer in order to switch off the rack conveyor motor after a prolonged period of inactivity
- Economizers to allow operation only when the rack is detected on that specific area, avoiding any waste of water and energy

2 YEAR

5 REASONS WHY

- High quality buffetware since 1996
- Designed, engineered and manufactured to the highest standards
- Parts are repairable and replaceable
- Highest quality stainless steel material & exceeds all rigid quality standards
- Extensive references with prestigious clients

5 REASONS WHY

- Established brand since 2009
- Extensive range of value products
- Solutions for front and back of house
- Products for the everyday rigor of a commercial kitchen
- Continuous improvement and expansion of the range

5 REASONS WHY

- Trusted for generations
- High durability
- Innovative technology
- Inspire food safety & sustainability
- Create efficiency and profitability

5 REASONS WHY

- Trusted quality and value
- A wide variety of options
- Products that offer confidence to any establishment
- Functional products with modern designs
- Continuous expansion to meet changing needs

5 REASONS WHY

- Established in 1866
- Swiss crafted cutlery
- Guaranteed quality throughout the ranges
- Manufactured using only the best stainless steel
- Beautifully designed yet functional

S/STEEL COOKWARE

When using Infiniti cookware, you can be sure that you're using cookware of the highest professional quality with a 5 year guarantee on selected ranges. If your budget allows always use S/Steel.

FEATURES

- 18/10 S/Steel in 2MM thickness, satin finished
- Anatomical heat resistant and S/Steel handles
- Lids recessed for perfect fit

- Drip proof edge
- For use on any heat source
- Thermodiffusing sandwich base: s/steel / aluminium
- Best quality S/Steel for commercial and industrial use. Long lasting and durable.

Radius specially designed for easy and fast cleaning

S/Steel handles for easy handling and heat-resistance

Inside and outside satin polishing

Triple thermo-diffusive sandwich base (S/Steel-Alu-S/Steel)

WHAT FUSION OFFERS OVER CONVENTIONAL NON-STICKS?

- It is totally free of any PTFE and PFOA
- Because it is ceramic, Fusion can be taken to extreme temperatures [455°C]
- It is waterborne (many conventional non-sticks use contaminating solvents)
- It cures at a lower temperature, using less energy and saving money

5 YEAR WARRANTY

USE AND CARE OF ALUMINIUM

- Cool before washing or soaking to prevent warping and accidental burns in handling.
- Wash after each use and dry immediately to preserve appearance.
- Always add salt to the boiling liquid and stir until dissolved. Undissolved salt should not remain on aluminium surface as this may cause pitting.
- Do not allow acidic or salty food to remain in aluminium for long periods of time as this may also cause pitting and discolouration.
- Minerals in water and foods may stain aluminium. Automatic dish washing may increase the staining when the high heat in the drying cycle combines with the minerals and chemicals in water. Hand washing is therefore recommended to preserve the attractive finish of aluminium cook ware.
- To remove burnt food fill the pan with water to cover and simmer over low heat until particles loosen, occasionally scraping burnt particles with a wooden spoon. After simmering, scour, wash normally, rinse in hot water and dry immediately.
- Stains and discolouration can be removed by boiling a solution of 2 to 3 tablespoons of cream of tartar, lemon juice or vinegar to each litre of water for 5 - 10 minutes. then lightly scour with a soap filled scouring pad.
- Cooking acidic food such as tomatoes or rhubarb will remove the stains naturally without affecting the cooked food product.
- To remove stains from an aluminium exterior use a non abrasive cleaner.
- Use wood, plastic or smooth edged metal utensils. Sharp edged tools such as knives and beaters may scratch the aluminium.

POTS - ALUMINIUM

When using Infiniti cookware, you can be sure that you're using cookware of the highest professional quality.

USE AND CARE OF BLUE STEEL

When used for the first time, the blue steel pan should be washed with hot water and liquid soap, rinsed and dried properly. Heat the pan and once it is hot, put a little oil or fat together with onions, bread and vegetable peels into it for a few minutes. Throw these ingredients away and wash the pan in hot water and dry. If you do not use it immediately, lightly oil the cooking surface and store it away.

FEATURES

- Medium duty blue steel between 1 and 1.5MM thick
- For less powerful heat sources
- Quick heating time
- Extra strong handles

KNIVES

WHAT MAKES A GOOD KNIFE?

- Sharpness - Most important is how well its blade will take and hold an edge
- Durability - A good knife will stand up to generations of daily use without undue wear or deterioration
- Hygiene - Materials and construction details of the handle should minimise crevices that offer hospitality to bacteria

WHY COLOUR CODE YOUR KITCHEN?

Prevent cross contamination between different areas in the kitchen or different food types

INNOVATIVE MATS

FEATURES

- Interlocking rubber tiles
- Ideal for bars and kitchens
- Open holes allow drainage of spilt liquids
- Reduces the risk of slipping on wet/greasy surfaces
- Effective anti-fatigue properties
- Easy to install, move, clean and replace

FATIGUE STEP

SS010006 - 0.9M X 0.9M X 14MM
SS010001 - 0.9M X 0.9M X 19MM

Versatile interlocking rubber floor tiles

INNOVATIVE MATS

FEATURES

- Hygienic anti-microbial properties
- 100% nitrile - excellent resistance to grease, oils, fats and detergents
- Raised cross-grip surface for effective slip-resistance
- Open holes allow spilt liquids to drain efficiently

- Cushioned surface for comfort / reduced breakage
- Easily cleaned in a commercial washing machine
- Bevelled edges all round

KMAT
KM010001
 1.4 X 0.85M

Best-selling 'safety floor' kitchen mat

FEATURES

- An economical anti-fatigue mat for the workplace
- Raised circular surface for superior slip resistance
- Conforms to Slip Resistance Test EN 13552 Category 10

- Open drainage holes for spilt liquids
- Made from hardwearing NBR rubber
- Moulded bevelled edges reduce trip hazards

RAMPMAT
RP010001
 1.5M X 0.9M X 10MM

An economical anti-fatigue mat

FEATURES

- Flexible PVC tile for bar shelves
- Hygienic PVC does not support the growth of bacteria
- Holes provide efficient drainage and allow air to circulate

- Simply interlink to cover desired area
- Easily cleaned in a commercial dishwasher

FLEXI-DECK
FD010001
 30 X 30CM (PACK OF 9)

Hygienic storage surface for glasses

FEATURES

- Ideal non-slip liner for bars, shelves and trays
- Easy to cut and trim to shape

- Machine washable
- Manufactured from foam PVC

GRIPSAFE
GS010001 - 0.6 X 10M
GS010002 - 0.6 X 1.2M

Gives surfaces enhanced grip

INNOVATIVE MATS

FEATURES

- Superior 'brushing and wiping' with 'rapid dry' properties - even out performs cotton
- Flexible, ultra-fine fibres provide deep - cleaning action on passing footwear
- Luxuriously soft pile that looks smart and will not lint
- Environmentally-friendly - does not require chemical pre-treatment or washing detergents

Economical anti-fatigue mats

FEATURES

- Orthomat® is regarded as one of the leading names in anti-fatigue matting
- Specifically designed to reduce the onset of fatigue caused by prolonged standing
- Durable, yet very comfortable matting
- Manufactured from 100% closed cell PVC foam, providing the right balance of underfoot cushioning and support, while encouraging healthy circulation

WHISK AND MOULDS

Less work, faster results! Three times the aeration with one rotation!

The inner flexible core moves as you whisk, whipping the mixture continuously. The wires also have the right amount of flexibility to maximize air incorporation, whilst standing up to thicker batters effortlessly. All wires are hygienically sealed.

The ISI Total Value Advantage offers you...

FEATURES

- A reliable and safe food whipping system with the highest quality standards
- World-class manufacturing and total quality management that is ISO9001:2000 certified
- Innovative, unique and patented products

- Chemical and preservative free
- Guaranteed desired results and superior quality
- Whips up to 5 X the ingredients added
- Lower cost per serving!

ISI CHARGER ADVANTAGES

- Cream chargers contains 8g of N2O (Nitrous Oxide); use one charger per pint size bottle, two chargers per quart size bottle
- Leak proof
- No expiration date
- Each charger is electronically weighed to guarantee correct volume
- Made of 100% recyclable steel coated with water soluble lacquer
- Special solvent-free cleaning method before filling ensures pure, clean N2O

CREAM CHARGERS

WHIPS

FEATURES

- Double walled S/Steel vacuum bottle with maximum insulating performance
- Metal head with protective silicone grip
- Dishwasher safe
- Suited for both cold and hot preparations

- Fixed, S/Steel dispensing valve in head
- Red head gasket with excellent resistance to high and low temperatures
- Coloured decorator nozzles with metal threads; lever with coloured clip
- Chrome charger holder and dust cover
- For best results use ISI Cream Bombs

THERMO WHIP PLUS
CGI2500
500ML

FEATURES

- For hot and cold preparations
- S/Steel bottle and head
- Two different sizes to suit any kitchen: 0.5LT, 1LT
- Three different decorator tips with S/Steel threading included
- Ergonomic charger holder with non-slip silicone grip
- Heat-resistant silicone seal with easy-removal pull tab for quick and hygienic cleaning

- Head with non-slip, heat resistant silicone grip for hot preparations
- Dishwasher-safe
- NSF-certified
- Helps meet HACCP requirements

OIL TESTERS

FEATURES

- Measures the quality of the frying oil in % PC (polar compounds) and determines the thermal-oxidative utilization
- In plastic bag with 2 X testers
- With instructions for use

OIL TESTER KIT
OTK0002
2 PACK FOR TRIAL

FEATURES

- Measures the quality of the frying oil in % PC (polar compounds) and determines the thermal-oxidative utilization
- With instructions for use
- Packed in box of 10

OIL TESTER KIT
OTK0010
PACK OF 10

FEATURES

- Polar compounds resolution: 0.5% PC/accuracy: $\pm 2\%$ PC
- Temperature: + 50 +200°C / resolution: 1°C /precision: $\pm 1^\circ\text{C}$
- Great for HACCP check points

ELECTRONIC
OTE0001

- The percentage of polar compounds is immediately visible on the digital display, enabling a rapid evaluation of the thermal oxidation of the frying oil. This will determine if the oil needs to be changed. Frying oil deteriorates during prolonged use over 180°C, and causes the appearance of carcinogenic derivatives

THERMOMETERS

FEATURES

- -50 +530°C
- Distance ratio 12/1
- Double scale °C / °F
- Display resolution: 0.1°
- Accuracy: $\pm 2\%$ or $\pm 2^\circ\text{C}$
- Fixed emissivity: 0.95

INFRARED LASER
THI0001
-50°C to +530°C

- Functions: DA TA HOLD - Backlight
- With pouch - Hanging box
- Instructions for use
- Laser pointer for precise surface temperature measuring
- Ideal for: oven temperatures, fridge temperatures, delivery/receiving of goods temperatures, food display temperature

FEATURES

CHEFEQUIP RANGE

FEATURES

JACKETS

- It is not just a Chef's jacket, it is a tool of trade and we take great care to perfect our uniform jackets at a genuinely good price
- ChefEquip garments are based on the traditions of chef's uniforms and retain all the features that guarantee comfort and style
- Our fabrics and trims have been extensively tested and proven to maintain appearance and structure after prolonged wear and commercial laundry

TROUSERS

- Traditional jean cut or baggy fit, offer comfort and style to enhance the total look

BENEFITS OF THE CHEFEQUIP BAGGY

- Elasticated waist designed not to bite into the skin after long hours in the kitchen
- Designed and cut for maximum ease of movement and comfort
- Two deep side pockets and one rear pocket
- Multifit and unisex
- Baggy fit allows for improved air circulation around the lower body and legs
- Commercial laundry tested and approved
- High quality manufacturing for long life wear

ELASTIC WAIST BAND FOR COMFORT AND FLEXIBILITY OF SIZE. ADDITIONAL SIZES MADE TO ORDER.

We are committed to creating an innovative and advanced line of products specifically designed to allow you to maintain an impeccable image in your workplace. The ChefEquip range is about modern innovative design as well as comfort, made from a fabric blend of polyester/ cotton, giving more durability with less weight.

MINI SERVING POTS AND PANS

FEATURES

- Polished S/Steel and a riveted, brass handle make this range stylish and appearance is eye catching and classic
- Minimal in size, but maximal in results
- This mini series is not only endearing, the small pots and mini sauté pans are also especially practical and versatile
- The small pot with lid for example are ideal for serving soups or little casseroles
- The small sauté pans are a nice alternative for serving a mini dish or dessert
- Moreover, these small pots and sauté pans give an extra touch to your buffet
- Practical: their heat conducting base allows them to be kept warm easily
- The mini series is perfect for serving individual portions of stews or sauces and it looks great on the serving pass

RUSTIC INSPIRATION WOOD RANGE

A range that delivers style and individuality

The New "Rustic Inspiration" wood range from Infiniti has an exciting table top personality that delivers style and individuality. A contemporary collection of Kiaat wood boards, risers, baskets and stands, driven by the changing trends in food presentation, to create a unique buffet solution.

WHAT IS KIAAT

Kiaat is commonly found in Central and Southern Africa, and is well known in SA. It is also known as "Mukwa, umbila, loedhout" or Wild Teak. Kiaat, is a hardwood, appealing to the eye as it is a beautiful brown filtered with streaks of white and highlighted with flames of red and orange that enhances the colour of the product.

Kiaat is durable and food safe, has a spicy fragrance and is insect resistant. This wood has great stability and it keeps its shape very well.

Not to be submerged in or exposed to excessive amounts of water, clean with damp cloth only rinse and dry in warm area.

Renowned craft potters, the prestigious Dudson brand carries a rich heritage dating back to 1800. Recognised by chefs worldwide for their industrial toughness and authentic design.

Finca is a multi-tonal print that mimics the worn textures of rustic interiors and architectural designs. Crafted and creative, Finca is finished in a semi-matte, hand dipped glaze, enhancing the character of the collection and leaving original 'makers marks' on the reverse of each piece.

Churchills UK manufactured tableware is precisely engineered to perform to the demands of the hospitality environment established in 1795, blending centuries of experience with cutting edge technology and design innovation to produce one of the strongest ceramic bodies in the world.

STONECAST RAW

Stonecast Raw is a rustic and earthy collection inspired by natural materials and stripped back interior design. Finished in the semi-matte Vellum glaze, Raw features a hand-applied rustic edge band and durable semi-matte glaze that is engineered to withstand a busy hospitality environment.

STONECAST

Churchill Super Vitrified Stonecast Range

Decorated individually by hand, creating unique pieces that add to the overall rustic charm. Inspired by the way the seasons change, add warmth and rustic style to the tabletop with this versatile hand-painted design. Hand-painted colour-wash is finished with a golden brown band and fine speckles designed to enhance food presentation. Each piece is unique, finishes + tones may vary.

RAKU

Inspired by the traditional glazing process known as Raku firing which creates expressive and exciting results, Raku showcases reactive texture through print. Raku inspired prints are achieved with Churchill's innovative print process. Each piece is unique as the reactive print acquires its beautiful colour through random, spontaneous effects. Emulating an artisan glaze finish, Studio Prints Raku has all of the durability and technical reassurance required for the hospitality environment.

Vitrified ceramics made from high quality materials perfectly suited for the fast-paced food service environment. Fortis is both beautiful, practical & durable.

Inspired by the flora of the Fynbos ecoregion, with delicate designs and earthy tones reminiscent of the South African landscapes.

TEMPEST

Tempest black textured ceramic crockery is a stylish and sophisticated choice for the food service industry. The unique texture adds an element of interest and depth to the classic black colour. Due to the process of adding texture to the plate each piece may vary in its texture and glazing

CUTLERY

We offer a range of the finest cutlery shapes, from simple to ornate, traditional to contemporary, along with speciality items such as serving gear and steak knives in either 18/0 or 18/10 S/Steel.

18/10 S/Steel contains 18% chrome and 10% nickel whilst 18/0 contains 18% chrome with no nickel. Therefore 18/10 provides greater protection against corrosion, scratching and assists with longer lasting brilliance and shine.

PINTINOX

Quality cutlery products made in Italy since 1929. Specifically made with quality S/Steel destined for modern catering.

GLASSWARE

A wide offering of quality glassware specifically designed for the food service industry.
From lead-free crystal glass to stemware and speciality cocktail glasses.

Our products are sourced from reputable manufacturers and are suited for any occasion whether formal or casual.

"Elegant and practical glassware for every day use"

Bormioli Rocco uses the finest natural resources to create superior glass for homes and businesses around the world. The range has been specifically designed for use in the catering industry in accordance with the most advanced manufacturing techniques.

- Our Crystal Range is made from superior lead-free crystal glass and encompasses strength, clarity, shine and innovation.
- The Standard Range is comprehensive and its versatile shapes are designed with emphasis on functionality and practicality.
- The Toughened Range is unsurpassed in strength and functionality. The manufacturing process employed renders it safer than ordinary glass and, in addition, tempered glass is also 2.5 times more resilient to thermal shock than ordinary glass.

A - LASER CUTTING

For thin rims that enhance the perception of wine qualities and elevate the tasting experience.

B - REDUCED THICKNESS

Excellent distribution of glass around the rim and along the sides.

C - STAR GLASS

Bormioli Rocco's innovative and exclusive chemical composition that produces an ultra-clear, highly transparent lead-free crystal glass.

D - PULLED STEM

A particular process whereby the stem is pulled from the same gob of molten glass as the bowl ensures elegant shapes, ultra-high strength and flexibility.

E - XLT

The exclusive reinforcing treatment that strengthens the stem and protects it over time.

DNA COLOR PROJECT - FULL MASS COLOR TECHNOLOGY

The colours are 100% dishwasher safe in industrial dishwashers and Eco-friendly. The material is chip-proof and retains all the typical characteristics of glass (brilliance, transparency, recyclability and hygiene) for the entire life cycle of the product.

STACKABILITY

Space saver shapes designed to economise on storage and transport.

TEMPERED GLASS

High resistance to thermal shock, impact and machine washing cycles. The exclusive reinforcing treatment that strengthens the stem and protects it over time.

SOMMELIER ITALIAN ASSOCIATION

In partnership with Italian Association of Sommeliers.

"New lead-free crystal glass composition, with physical aesthetics comparable to conventional lead crystal results in exceptional clarity and brilliance, with extra strength and durability"

DESIRE

Award winning design. Every single glass is uncompromisingly clear and brilliant. Aerlumer - the bottom curl lines at the bowl makes for unprecedented appreciation experiences.

UNIVERSAL
1LS10US15 - 42CL
(24)

RICH WHITE
1LS10RW17 - 48.5CL
(24)

ELEGANT RED
1LS10ER21 - 59CL (24)

Aerlumer encourages micro-oxidation and softens the wine while swirling. It allows diversified interaction between wine and air, intentionally subtle to avoid effects when discovering colours of wines

HONG KONG HIP

Hong Kong Hip Series - with modern and edgy silhouette, it is sure to make a statement and is perfect for occasions where the finest wines and the most fashionable society come together to create the most hip and happening dining scene.

SALT AND PEPPER MILLS

PARIS - U'SELECT WHITE

Paris U'Select, allows the user to choose from different settings for coarseness or fineness. This provides the perfect grind: from roughly cracked to a fine dust, and gives consistency when switching back and forth.

SALT / PEPPER GRINDERS

FEATURES

- S/Steel grinding mechanism

WOODEN PEPPER GRINDER
PGW0150 - 150MM
PGW0300 - 300MM
PGW0500 - 500MM

ACRYLIC SALT AND PEPPER GRINDER
SPG0150 - 150MM (SET)

SALT/PEPPER SIZING

Salt granule should be 4mm and pepper corn 6mm or less.

PLACEMATS

The hospitality industry continues to turn to macFAB for innovative and ground breaking products, which help reduce both energy and laundry costs while combining sophisticated textures and finishes with durability and ease of maintenance. macFAB placemats are made from spun polyester yarn coated with waterproof PVC to create a beautiful, highly functional item for the hospitality industry. It is stain resistant, ultra strong and easy to clean. Mats are suitable for both indoor and outdoor use, as the material is UV protected for life.

CLEANING AND MAINTENANCE

PLACEMATS

CLEANING

Placemats are easily cleaned with soap and water. Should a stubborn stain occur, the woven polyvinyl can withstand gentle rubbing with hot soapy water or a bleach-based detergent.

DISHWASHERS

Do not put placemats into the dishwasher.

SANITIZING

A high temperature sanitizer can be used once a week to ensure that the placemats remain hygienic. This product cannot be ironed since it is made of vinyl.

STORAGE

Store placemats flat or neatly rolled up. Do not allow them to be folded or allow them to crease.

CROCKERY

DETERGENTS

Choosing the correct detergent is important. High alkaline content will eventually damage the glaze surface. Always follow the manufacturer's instructions and do not use more than the recommended quantities.

TEMPERATURE

A wash temperature of 60°C is generally optimal for achieving the correct balance between ensuring the effective removal of food particles and maximizing the longevity of the glaze. Dishwashers Avoid any vibration of plates against each other through proper loading and through the use of plastic coated racks and baskets. Ensure that the manufacturer's instructions are followed. Wash cutlery in separate baskets to prevent metal markings on the crockery.

HANDLING

Do not use metal utensils, scrapers, abrasive pads and powders or bleach for removing food particles. Only borax or gentle, non-abrasive household cleaners should be used to remove stains. Metal markings can be avoided by placing tableware on plastic or rubber mats.

ROTATION

Rotating the tableware in use promotes even wear and tear. Ensure that there is enough stock in operation to prevent excessive use and premature deterioration.

MICROWAVES

Ceramic tableware with metallic decorations such as gold or silver are not suitable for microwave ovens.

THERMAL SHOCK

Ceramic tableware is not designed to withstand excessive thermal shock conditions e.g. from the freezer to the hot oven. Do not expose tableware to a naked flame or heated electric element.

CUTLERY

CLEANING

Wash cutlery in hot soapy water as soon as possible after use. Rinse immediately with hot water and wipe cutlery with a dry, clean cloth immediately. Never leave dirty cutlery to soak and never leave cutlery damp, especially 18/0 S/Steel grade.

DETERGENTS

Use only pH neutral or slightly alkaline detergents. Don't use products containing hypochlorides (bleach) or silver dip. Always follow the manufacturer's instructions and do not use more than the recommended quantities.

DISHWASHERS

Do not mix stainless steel or silver plate in the same load. Ensure that the manufacturer's instructions are followed and do not allow cutlery to stand in the dishwasher after the cycle is completed. Cutlery must be dried with a clean cloth.

POLISHING

Stainless steel cutlery will perform better if it is polished from time to time with a recommended stainless steel polish.

CLEANING AND MAINTENANCE

GLASSWARE

CLEANING

Glassware should be cleaned immediately after use to avoid stubborn residues. Wash glassware in hot water and rinse with cold water. Crystal glass should be washed in lukewarm water. Scrub glassware thoroughly with a brush ensuring that all surfaces are covered. Do not use any harsh cleaning utensils such as a steel wool pad to wash glassware as this will cause scratches.

DETERGENTS

For stubborn stains, use a mild detergent only. Always follow the manufacturer's instructions and do not use more than the recommended quantities. After using a detergent, ensure that glassware is rinsed thoroughly to avoid any detergent residues being left on the glass.

DISHWASHERS

Glassware can be washed in the dishwasher. However, take care not to wash glasses with very delicate long stems in the dishwasher as the possibility exists that these may break.

ROTATION

Avoid using scratched, cracked or chipped glasses.

STACKING

Avoid stacking glassware unless it is specifically identified as stackable. For best results store glasses in appropriate crates.

THERMAL SHOCK

Do not expose glassware to an open element or electric plate and do not place in the oven. Normal glass can withstand temperature changes of 42°C, and tempered glass can withstand temperature changes of 130°C.

MICROWAVES

Never allow glassware to be placed inside a microwave oven.

SALT AND PEPPER MILLS

Don't mill directly over open saucepans, casseroles or frying pans during cooking. The steam can dampen the salt and pepper which in turn can clog the mechanism.

CLEANING

Do not put your mills in the dishwasher. Clean the body of the mills with a soft, dry cloth. Never immerse the mill in water as will cause rust to appear underneath/inside the unit, but can also lead to paint cracking and swelling in the case of wooden units. Clean the insides of the mill with a small brush.

MAINTENANCE

Don't over-tighten the nut when you refill or adjust the grind. If you don't intend to use the mill for an extended period of time, remove the peppercorns or salt. When you get your mill, and once in a while after that, place a drop of mineral oil on top nut. Wood body mills will benefit from the occasional application of mineral or vegetable oil to enhance the appearance and prevent the wood from drying out. In cases, that the mechanism is not working properly, it is caused by the replacement salt crystals or pepper corns being much too big for the mechanism to handle i.e. no grinding takes place as there is no traction.

REFILL

Remove the knob and top to fill, then replace them both. Turn the mill upside down to get any seasoning out of the mechanism, and then turn the top nut clockwise to tighten loosely. It is very important to replace with similar sizing to what was originally in the mill i.e. medium to small salt crystals or peppercorns etc. Don't use wet or moisture-rich salt crystals Don't ever use salt in your pepper mill or peppercorn in a salt mill as it may well corrode the mechanism or other spices or herbs either.

STORAGE

Store your mills in a cool, dry place where they are unlikely to be knocked to the floor and get damaged. Storage over an area used for cooking is more likely to lead to a clogging up of the mill especially the salt mill as condensation may get into the seasoning material.
